Summary	Junior Software Developer with hands-on experience delivering production-ready solutions for local government and small businesses. Skilled in Laravel, React, Vue, Next, and React Native , with expertise in designing secure RESTful APIs and building responsive web/mobile apps. Proven record of creating scalable systems, including a city-wide emergency response platform and a government file tracking system. Recognized as Champion of the Kabankalan ICT Summit for innovative IT solutions.		
Experience	Freelance	API Developer	Remote July, 2025 - October 2025
	- Designed and developed secure and scalable RESTful APIs using Laravel 11 for a Document Management System. - Implemented user authentication, role-based access control, and email verification features. - Integrated filtering, pagination, and dynamic querying to improve data accessibility and admin efficiency. - Collaborated with a frontend developer to ensure seamless API integration with a Quasar (Vue.js) interface. - Led the implementation of key backend features like document archiving, activity logging, and file history tracking.		
	ICT Division of the Negros Occidental Provincial Office	Web Developer Intern	Bacolod City, Negros Occidental February 2, 2026 - Present
- Develop and maintain web-based systems using Next.js and modern UI components for provincial government services. - Collaborate with backend developers to integrate REST APIs and ensure smooth data flow between frontend and backend. - Implement responsive and accessible user interfaces for public-facing applications. - Assist in system testing, debugging, and performance improvements. - Participate in requirement discussions and documentation for government digital services.			
Projects	Kabankalan City Document Management System	July 2025 - September 2025	
	The File Tracking System (FTS) is deployed locally within the City Hall Administrative Office . It runs on a secure, in-house server that is accessible only through the internal network (LAN) , ensuring that sensitive government files are protected and only authorized personnel can access the system. https://lgukabdms.online/#/		
	Kabankalan City Emergency Response Application (KCERA)	February 2025 - Present	
A mobile and web-based system built with React Native and Laravel 11 that enables residents to report emergencies and allows the local government to manage and respond to incidents in real time.			
	SpeakUp	January 2026 - February 2026	
	A web-based application aims to bridge the communication gap between citizens and the local government, allowing people to submit their suggestions and complaints anonymously. https://speakup-iota.vercel.app/		
Technical Skills	Frontend	React.js, Next.js, Vue.js, React Native, TailwindCSS, JavaScript, TypeScript, HTML5, CSS3,	
	Backend	PHP, Laravel, Node.js, Drizzle ORM	
	Database	MySQL, PosgreSQL, REST API design	
	Tools	Git, GitHub, Expo, Postman, Figma, Photoshop	

Awards	Champion of the 3rd Kabankalan ICT Summit City Mall Kabankalan City	September 2025
	Champion of Programming Challenge Fellowship Baptist College 70th Founding Anniversary	March 2024
	Participant at the Region 6 DICT Innovation Startup Program Region VI	October 2025
Soft Skills	Strong communicator; experienced working with government and small-business stakeholders. Leadership & teamwork (Capstone Project Leader andformer Red Cross Youth Council President). Proactive, detail-oriented, and adaptable to new technologies.	
Education	Kabankalan Catholic College BS Information Technology	July 2022 - Expected Graduation June 2026
