Summary

Junior Full Stack Developer with hands-on experience building production-level systems for government and real-world use cases. - Skilled in Laravel, React, Vue, and React Native, with a strong focus on scalable architectures, secure APIs, and user-centered design. Proven ability to deliver impactful solutions, including a city-wide emergency response system and document management platform.

Experience

ICT Division of the Negros Occidental Provincial Office	Bacolod City, Negros Occidental
Web Developer Intern	February 2, 2026 - Present
- Developed and maintained scalable web applications using Laravel, Next.js and modern frontend frameworks - Integrated and optimized REST APIs, improving data flow reliability and system performance - Built responsive and accessible interfaces used in government service workflows - Assisted in debugging and performance tuning, contributing to stable production deployments - Collaborated with cross-functional teams to translate government requirements into digital systems	

Freelance

Web Developer
- Built a Document Management System (Laravel 11) with role-based access control and secure authentication - Implemented features like search, filtering, pagination, and real-time updates for better usability - Designed backend architecture and database structure for scalability and maintainability - Delivered a full-stack solution used in real operational environments

Projects

Kabankalan City Emergency Response Application (KCERA)	February 2025 - Present
- Developed a real-time emergency reporting system using React Native, ReactJS, Node and Laravel - Enabled citizens to report incidents while allowing responders to manage and track emergencies - Designed for scalability and fast response coordination	

Kabankalan City Document Management System	July 2025 - September 2025
- Built a secure internal system for managing sensitive government documents - Deployed on a LAN-based infrastructure ensuring restricted and safe access - Improved document tracking and accessibility for administrative workflows	

<https://lgukabdms.online/#/>

SpeakUp	January 2026 - February 2026
- Created a platform for anonymous citizen feedback and complaints - Strengthened communication between community and local government
