SHEM M. REGIDOR

Junior Full-Stack Developer | React / Next.js | Laravel / PHP

Kabankalan City, Negros Occidental, Philippines | +63 993 978 1151 | shemregidor6@gmail.com | shemdev.vercel.app | github.com/ShemHooks

PROFESSIONAL SUMMARY

BS Information Technology graduate and full-stack developer with experience building government workflow systems, corporate websites, and mobile applications. Skilled in React, Next.js, TypeScript, Laravel, Node.js, MySQL, REST APIs, authentication, and role-based access control. Experienced in delivering responsive interfaces and database-backed solutions.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, Python, SQL, HTML, CSS

Frontend & Mobile: React, Next.js, Vue.js, React Native, Expo, Tailwind CSS

Backend & Data: Laravel, Node.js, Express.js, REST APIs, MySQL, PostgreSQL, Drizzle ORM, Eloquent ORM

Tools & Infrastructure: Git, GitHub, Postman, Docker, Linux, AWS, Kubernetes, Vercel, GoDaddy / DNS

PROFESSIONAL EXPERIENCE

Mobile App Developer | ApusFly Startup | 2026–Present

- Develop mobile screens and booking workflows for a drone-services marketplace using React Native, Expo, and TypeScript.

Full-Stack Developer | Yaramay IT Services | 2026

- Develop web-based solutions across frontend and backend components, including responsive interfaces and application workflows.

Site Reliability Engineer Trainee | OpsWerks | Jul–Sep 2026

- Completed hands-on labs in Linux, Git, Python, Docker, AWS, and Kubernetes; practiced troubleshooting and containerized deployment concepts.

Web Developer Intern | Provincial Government of Negros Occidental, ICT Division | Feb–May 2026

- Developed internal government web applications and REST API features, including authentication, RBAC, request tracking, search, and pagination.
- Supported hardware, operating-system, and network troubleshooting alongside application development.

Freelance Software Developer | Project-based

- Built client-facing websites and database-backed applications using modern frontend and backend frameworks.

SELECTED PROJECTS

KCERA — Emergency Response Platform | Laravel, React, React Native, Socket.IO

- Led development of a college capstone platform for incident reporting, dispatcher verification, GIS mapping, and real-time response coordination; won a 2025 ICT innovation championship.

Civil Registry System | Next.js, Node.js, MySQL

- Built a role-based registry workflow with document previews, reviewer approval/return actions, and administrative record handling.

Smart Activity — Corporate Website | Next.js, TypeScript

- Developed a responsive bilingual English/Arabic corporate website with animated content and production deployment. Live: smartactivity.net

AgriTimbang — Livestock GIS & Valuation | Laravel, MySQL

- Implemented role-based administration, livestock reference data, valuation workflows, and LGU transaction verification features.

EDUCATION & AWARDS

Bachelor of Science in Information Technology | Kabankalan Catholic College | May 2026

Champion — 3rd Kabankalan ICT Summit (2025) | Champion — Programming Challenge (2024)
